George Moran Sends Ring From France—Taken From Captured German—New Scheme For Chicken Stealing—Close of Chautauqua With Popular Features—Funeral of Mrs. Charlotte T. Capron.

From his brother, George, who is fighting in France with the 102nd Infantry, James Moran of Danville has received a ring taken from a German officer captured recently on the sector where the regiment is fighting.

In a letter that came along with the ring, taken from a German officer, there is a history connected with the ring, but he was not permitted to write it in the letter.

The ring is of silver and has an inset at the top, a keystone in enamel. At each side of the inset are dates 1914—1917. Private Moran wrote that they were supposed to represent the war years, the beginning and the end—another German prediction that went wrong.

George Moran was one of the first of the selected men to go into service from this district. He left here last fall, was sent to Camp Devens and later transferred to the 102nd Infantry, then at Yale Field, New Haven.

New Way of Stealing Hens.
A man of swarthy appearance, evidently a foreigner, has pulled off a new stunt in Danielson. Calling at the home of Mr. and Mrs. Frank Gilbert on Broad street, he represented that Mr. Gilbert had sent him there to get two hens. His story was believed and two hens were caught from the coops and turned over to him. Later it was learned that the man was an imposter and that he had attempted to get hens by the same methods at other places on Broad street. The matter was reported to the police.

Moonlight Dance at Lake.

There were many at Wildwood park Thursday evening for the moonlight dancing. Buses in the lake have commenced to bite better than was the rule earlier in the month and some good catches are being reported.

The arrival of new families in various manufacturing centers in the town of Killingly indicates that the school census, when it is taken early this fall, will show another increase.

Probably in Action.

Letters from members of B Battery, 5th artillery, formerly the 13th company, now in service about a year, tell of their advanced training in France and of their expectation of early action at the front, as these letters were written a month ago, there is a possibility that the writers may be engaged at the present time in holding up the German drive.

Combat Potato Post.

Aphids, the new pests attacking potatoes, are said to be present by thousands in numbers of potato patches in the vicinity of Putnam, and this is true, to greater or less extent, in many parts of southern New England. The statements issued by the Farmers' association have enabled potato growers to recognize the pest and take the necessary measures to overcome the destructive work they have been doing.

Suspicious of the Greigs.

Officials here feel confident that they did not learn all the facts surrounding the registrations of Matilda and Elizabeth Greig, who were before the court and who were fined. The women told contradictory stories to the court. It is believed, however, that they came to the vicinity of Harmony, below Chepicheet, where they are said to have been in a camp.

Registrants Examined Thursday Show High Percentage in Physical Test.

The examination of registrants of June 5 was completed here Thursday by the physicians of the local board. The young men, nearly all in their 22nd year, showed up especially well, physically, and a very high percentage of them were qualified for general military service, a higher percentage than has been obtained from any other group. Many of the young men are impatient to get into the service and their going will not be long delayed, for the calls pending will practically exhaust the registrants of Class 1A, 1917.

"I know something that will clear your skin"

"My sister went through just the same thing. Her face was a perfect sight with eczema, and the itching nearly drove her wild—especially at night. She tried everything until a doctor recommended Resinol Ointment and Resinol Soap. All the suffering stopped at once and the eruption was gone in a wonderfully short time. Why don't you begin using them today?"

The Resinol treatment is equally effective in making red, rough, pimply complexions clear and healthy.

Resinol

Resinol Ointment is so nearly flesh-colored that it can be kept on exposed surfaces without attracting attention. Resinol Soap and Ointment are sold by all druggists. It comes in two sizes (50c and \$1).
